

# ALUMINUM ARCHITECTURAL U-CHANNELS

## A SMART SOLUTION FOR DEFINING SPACES!

Architectural U-channels offer a unique way to create glass partition walls that enhance an open layout while still maintaining defined areas. These partitions provide beautiful views between rooms, allow natural light to flow throughout, and add an architecturally striking element to any space.

Suitable for both residential and commercial applications, they can be customized to meet your specific needs.

## TECHNICAL SPECS

- Square, right angle corners available in matte black, satin aluminum and brushed nickel finishes
- 1" Wide thick walled (1/8") channels for 3/4" material
