UTILITY KNIVES

- ① POWERBlack™ snap-off blades are 15% sharper than other black blades.
- ② 2 extra blades with convenient in-handle storage included on most TASK Signature® knives.
- ③ Extra safety feature includes a safety cap or safety lock to prevent the blade from sliding out the back.
- ④ Knives with ratchet locks offer the ultimate in safety while knives with auto locks offer ease of use and enough blade holding power for most applications.
- ⑤ Soft Touch® coating available on many models for a firm and comfortable grip. Select models with Soft Touch® rubber grips provide added safety and comfort.

**OUTLASTS AND OUTPERFORMS
OR YOUR MONEY BACK!**

SHARPNESS TEST

**TASK SIGNATURE® POWERBlack™ BLADES OUTPERFORM
THE LEADING COMPETITIVE BLADES BY 15%!**

BLADE TEST METHODOLOGY

For this test, blades were anchored into a machine that places 750g of pressure (average cutting pressure) onto the blade, which is then pulled across a stack of newsprint. After each pass, the number of cut sheets is measured and the process is repeated (32 passes per blade).

TASK SIGNATURE® POWERBlack™ blades were proven to perform 15% better than the leading competitor's black blades and vastly outperform other competitors' products.
